In re Application of :
Rocky Stewart, Timo Metsaportti and :
Pal Takacsi-Nagy :
Application No. 09/788,150 :
Filed: February 16, 2001 :
Attorney Docket No. :
Title: OPEN MARKET COLLABORATION :
SYSTEM FOR ENTERPRISE WIDE :
ELECTRONIC COMMERCE :

DECISION REFUSING STATUS
UNDER 37 C.F.R. §1.47(a)

This is in response to the petition filed July 9, 2001, under 37 CFR 1.47(a), and the substitute drawings filed September 4, 2001.

The petition under 37 C.F.R. §1.47(a) is **DISMISSED**.

Rule 47 applicant is given TWO MONTHS from the mailing date of this decision to reply, correcting the below-noted deficiencies. Any reply should be entitled "Request for Reconsideration of Petition Under 37 C.F.R. §1.47(a)," and should only address the deficiencies noted below, except that the reply may include an oath or declaration executed by the non-signing inventor.

Failure to respond will result in abandonment of the application. Any extensions of time will be governed by 37 C.F.R. §1.136(a).

The above-identified application was filed on February 16, 2001, without an executed oath or declaration, and with 18 sheets of informal drawings. Rocky Stewart, Timo Metsaportti and Pal Takacsi-Nagy were named as joint inventors. Accordingly, on April 5, 2001, applicants were mailed a "Notice to File Missing Parts of Application," requiring an executed oath or declaration, the surcharge for late filing under §1.16(e), and substitute drawings in compliance with §1.84. This Notice set a two month period for reply, with extensions of time obtainable under §1.136(a).

On July 9, 2001 (certificate of mailing July 5, 2001), applicant filed the instant petition (and fee), made timely by an accompanying petition for a one-month extension of time (and fee); paid the surcharge; and submitted a declaration executed by inventors Stewart and Takacsi-Nagy on behalf of themselves and on behalf of non-signing inventor Metsaportti. However, no formal drawings accompanied this reply. Accordingly, on August 15, 2001, applicants were mailed a "Notice of Incomplete Reply (Nonprovisional)" stating that the declaration had been received, but the reply was still incomplete as the drawings had not been

drawings, made timely by an accompanying petition for a two-month extension of time (and fee).

Applicant asserts that acceptance of the declaration under §1.47 is proper because inventor Metsaportti refuses to join in the application. A grantable petition under 37 C.F.R. §1.47(a) requires: (1) proof that the non-signing inventor cannot be reached or refuses to sign the oath or declaration after having been presented with the application papers (specification, claims and drawings); (2) an acceptable oath or declaration in compliance with 35 U.S.C. §§115 and 116; (3) the petition fee; and (4) a statement of the last known address of the non-signing inventor.

By declaration of attorney Karl Kenna, applicants set forth the facts relied on to conclude that inventor Metsaportti refuses to join in the application. Attorney Kenna detailed unsuccessful attempts to contact inventor Metsaportti by email and telephone, as well as, delivery of the application papers to inventor Metsaportti's last known address via Federal Express on April 30, 2001. In support of the petition, applicant submitted a copy of the FedEx email confirmation of delivery.

These facts have been considered but not found adequate to show that inventor Metsaportti refuses to join in the application. Applicant has not distinguished whether inventor Metsaportti's nonresponsiveness is due to a refusal on his part to join in the application or whether applicant has simply not been reached to respond. Applicant received no response to emails. The telephone number at which applicant was attempting to contact the inventor proved to be invalid. The application papers were not signed for by inventor Metsaportti, but by a "Irene Summanen." Thus, it cannot be concluded that the application papers were presented to inventor Metsaportti, and by his conduct, he has refused to join in the application.

Before a refusal can be alleged, applicants must demonstrate that a *bona fide* attempt was made to present a copy of the application papers (specification, including claims, drawings, and oath or declaration) to the non-signing inventor. See MPEP 409.03(d). It is likely from the evidence submitted that the address to which applicant sent the application papers, like the telephone number obtained from BEA Systems, Inc., was at the time invalid. Further efforts to locate inventor Metsaportti and to present the application papers to him at a valid address (or establish that the address to which the papers were delivered is valid) are warranted. If diligent efforts to obtain a forwarding address or to locate the non-signing inventor by other means such as through the telephone, or the Internet continue to fail, then applicant will have provided the necessary proof required under 37 C.F.R. §1.47 that the inventor cannot be reached. Details of the efforts to locate the non-signing inventor should be set forth in an affidavit or declaration of facts by a person with first hand knowledge of the details. Applicant should submit documentary evidence such as the results of a telephone directory or an Internet search. However, if the non-signing inventor is located at another address, a copy of the application papers should be sent to him at that address, or, if it is determined that the inventor is represented by counsel, to the address of the non-signing inventor's attorney. Documentary evidence, including copies of the transmittal cover letters and return mail receipts, should be made part of the record.

Moreover, clarification is required regarding the declaration filed July 9, 2001, and citizenship listed thereon of inventor Metsaportti. In the email communications to inventor Metsaportti dated April 17 and 24th, 2001 (Exh. A & B) respectively, attorney for applicant, through his assistant, communicates that we do not have the citizenship of inventor Metsaportti. In his declaration, attorney Kenna states that he received no response to these emails. No other evidence of record establishes how this information was obtained.
